
Panel 1 - Flying Commercial Spaceflight

Are you conducting any studies on your pilots? E.g. effects of multiple launches and landings? If so, please discuss. 14 votes

No response available.

For John: the NASA Administrator recently publicly criticized your competitor for delays. Has Boeing received any NASA pressure to maintain schedule? 14 votes

No response available.

For Beth: you worked EVA at NASA. When is VG planning to do a spacewalk? 10 votes

No response available.

Benji: when will the in-flight abort test take place, and what is your best guess for a Demo-2 launch date? 10 votes

No response available.

Benji: how many more parachute tests do you need to do before they are certified for the Demo-2 mission? 9 votes

No response available.

Smith: does AXIOM have partners to help defray operations costs?

8 votes

No response available.

Tara mentioned there is no list of disqualifying conditions for flight. Is pregnancy allowable? 8 votes

No response available.

For SpaceX, How are telemetry devices currently being utilized to quantify the safety of spacecraft reusability? 8 votes

No response available.

What are the medical or medicine safeguards currently put into place for space tourists? 8 votes

No response available.

What is Virgin Galactic roadmap for making its flights more accessible for people, ie lower price point? 7 votes

No response available.

What will be the revenue sources of a venture like going to Mars? Is it going to be completely funded by SpaceX? 6 votes

No response available.

Will the space tourists be provided the opportunity to volunteer/participate in research? 5 votes

No response available.

Would you recommend that all space tourism flights have a "flight attendant" with emergency medical training on board? 5 votes

No response available.

can explain what is being done to create parameters for products or services needed in space that the common biz venture might be able to use to develop products or services re space ? 5 votes

No response available.

Between all of the comercial space programs out there, what parts, if any, do you all believe should be standardized? 5 votes

No response available.

What oversight does NASA have on space tourists? Any policies/guidelines? Any min req to fly besides your pocketbook?

5 votes

No response available.

For SpaceX: On the Dragon, when will the pad abort system supplant parachutes for non-parachute re-entry/recovery? 5 votes

No response available.

Can you discuss your contingency plan for when a tourist has a health issue during flight? 5 votes

No response available.

What are some medical conditions that would definitely disqualify a person for suborbital or orbital spaceflights? 5 votes

No response available.

Beth- ever thought of changing pilot crew's terminology from "Fire, Fire" to "Ignition, Ignition"? As a general aviator Hearing "fire" immediately suggests an emergency response procedure? Thoughts?

5 votes

No response available.

Are the videos that you've shown here publicly available online/YouTube? 4 votes

No response available.

For Beth: What is the approximate time window of weightlessness and free movement around the cabin during your flights? 4 votes

No response available.

How many people can go up at one time? 4 votes

No response available.

John: will you make an un crewed StarLiner test this year? If not, what's the holdup? 4 votes

No response available.

For VG, what is the average age of your customers? Is there any motion to encourage flights for younger passengers (assuming the average age is fairly high)? Perhaps scholarships? 3 votes

No response available.

Any thoughts on when the cost per kg will be below \$1000 US? 3 votes

No response available.

For non-propulsive launches like SpinLaunch, are there any possible health benefits as opposed to propulsive launches? 2 votes

No response available.

What plans exist for commercial entities to support future R&D required to improve understanding of human health in space? 2 votes

No response available.

Axiom: 20-30% of 6 people is 1-2 people. Are effects seen on 1 person significant? 2 votes

No response available.

For Beth: what was the quality of the window clarity on your flight? The picture looked like there was condensation or perhaps crazing.

2 votes

No response available.

why is cost per pax per flight increasing vs decreasing ? 2 votes

No response available.

How does haves commercial customers impact medical procedures on ISS or other future space stations? 2 votes

No response available.

Comment: of the 65 women who have been to space -40 have been girl scouts 2 votes

No response available.

Question for Boeing: Starliner looks suspiciously like an oversized Appolo capsule. Why is that? :-) 2 votes

No response available.

For Smith: Is there opportunities for more parties to be involved in your pharma rodent research or they already predefined? 2 votes

No response available.

For John: Are there any hopes to do commercial launches at spaceport America in the future? 2 votes

No response available.

How do you actually register/become a customer of Virgin Galactic?

2 votes

No response available.

What are the impacts of differing international standards for medical screening and waiver on business planning/customer base? 1 votes

No response available.

For Ben. Where wi you land on land? 1 votes

No response available.

what planning and assurances are in place to counter space hazards; e.g. micrometerites 1 votes

No response available.
