

Keynote: Scott Steffan

October 12, 2017

1. How much work was it to get Moog to get into the commercial space business? What role did the Espa ring play?
2. You say new space - how is it different from commercial space?
3. What can MOOG do to become more competitive with internal new space development and manufacture of their own components?
4. What propulsion on moog onv?
